\* Tie broken on formal scores

\*\* These scores are different than those announced at the closing ceremony due to a transcription error. The Mid South team was, in fact, the first-place team with a perfect score of zero. This elevated this team to first place, and lowered the Eastern PA and NYUC teams to second and third place, respectively. In true Pony Club fashion, all members of the three teams involved, when informed of the transcription error following the conclusion of the closing ceremony, graciously exchanged ribbons.
