

Dear Pony Club Family,

Effective March 27, 2020, the governor of Kentucky has issued orders for closure of all nonessential businesses. As this order does apply to the USPC National headquarters, our office has closed and all employees will now be working from home.

As always, USPC will communicate any updates and announcements as they become available. Please visit the Pony Club COVID 19 webpage for resources and the latest announcements.

The National headquarters is poised to support the needs of our clubs, centers, members and volunteers during this unprecedented time. While the USPC headquarters is closed, USPC staff will still be available by telephone and email. If you need to reach a member of the staff, visit the National Office Contact page of the website for direct dial numbers and emails.

The entire USPC staff is committed to minimizing disruption of service as much as possible. We will get through these uncertain times together. Not only are we Pony Club proud, we are Pony Club strong!

Sincerely,

Teresa Woods

USPC Executive Director
