

Pony Club

Where it all begins

Educational Providers

Pony Club is pleased to partner with additional educational providers, dedicated to promoting quality instructional resources and education for our membership. Our partners know how important equine knowledge and awareness is for the future of all horses and horse care providers.

The Right Horse

We're proud to partner with The Right Horse, a collective of horse industry professionals and equine welfare advocates leading the industry toward positive solutions and celebrating stories of successful horse adoption and ownership. We're moving things forward through a dialogue of kindness and respect while working together to improve the lives of horses in transition. <https://www.therighthorse.org/>

AllHorseTalk.com

This site provides video tips and training on all topics of horse care and riding produced and presented by Alita (Bunny) Hendricks. For just \$1 Pony Club members get a 30-day trial of the Premium membership level. If a member decides to keep the Premium-level membership (\$10/month), 25% of the monthly subscription fee goes to USPC. Visit www.AllHorseTalk.com to sign up.

EquestrianCoach.com

This site aims to make quality education accessible and affordable to every equestrian, regardless of background, level, or geographic location and features a video library allowing you to learn at home or watch from your iPhone or iPad! It is designed for novice to advanced riders with a variety of membership options. EquestrianCoach.com membership is offered at a special 50% discounted rate to Pony Club members only. In addition, every membership sold to Pony Club members generates a donation back to the USPC national organization.

Kentucky Equine Research

KER works as a consultant and resource to feed manufacturers and has been responsible for providing feed and nutritional guidance to horse owners at the last four Olympic Games, the 2010 World Equestrian Games and the 2010 Asia Games. KER has a multitude of educational articles, videos and other materials. Please visit the KER website and check out all the available information that you may find useful. In addition, you may sign up for the electronic newsletters [The Weekly Feed and Equine Health Review](#).
