

IT'S **HOT** OUTSIDE!

STAY COOL. STAY HYDRATED. STAY INFORMED.

STOP

all activity and get to a cool environment if you feel faint or weak.

Pace activity. Start activities slowly and pick up the pace gradually.

Schedule workouts or practices earlier or later in the day to avoid midday heat.

Drink from two to four cups of water every hour while exercising. Muscle cramping may be an early sign of heat sickness.

Avoid liquids containing large amounts of sugar.

Exercise with a partner or teammate.
